

About the Greater Clearfield Chamber of Commerce Entrepreneur Center

The Entrepreneur Center is creating jobs by helping entrepreneurs and small businesses access the resources they need for growth and long-term success. The Incubator, a project of the Greater Clearfield Chamber of Commerce, is a partnership with SCORE and Clarion University, SBDC, the business community, and local and state governments. The Entrepreneur Center maximizes opportunities to expand its resource base by working closely with community partners and other businesses and employment-directed organizations.

Opening February 1, 2023!

The Small Business Incubator creates jobs by helping entrepreneurs and small businesses access the resources they need for growth and long-term success. With a refreshed focus on micro-businesses, our goal is to break down the barriers when developing a business.
